○ Characteristics of the program

The teacher-training program at Hyogo University of Teacher Education (HUTE) is designed for school teachers from foreign countries (referred to as international school teachers) seeking for higher levels of pedagogical competence and abilities. This program provides a broad range of opportunities for interdisciplinary study and research in school education. The Graduate School teaching staff are experts in all fields of school education and provide research opportunities to meet the needs and interests of the international school teachers.

○ Outline of the course

<Japanese language education> October 1, 2017 – March 31, 2018 (6 months)

The international school teachers are required to take the Japanese Language Course at an institute (usually at Kobe University) for 6 months: October 1, 2017 – March 31, 2018. Then, supplementary classes for Japanese language are offered at HUTE (once a week): April, 2018 – March, 2019. “Current State of Education in Japan” (30 hours) is also provided in the Graduate School: April 1, 2018 – March 31, 2019.

<Specialized training Professional studies> April 1, 2017 – March 31, 2018 (One year)

Each international school teacher pursues his or her professional training according to his or her individual program; taking classes with Japanese graduate/undergraduate students, special classes in English, if necessary, a special seminar under the guidance of the international school teacher’s academic supervisor, and educational practicum at the university’s attached elementary and secondary schools. The program is based on the international teacher’s academic interests, Japanese language ability, and professional competence. Since most classes are conducted in Japanese, it is desirable to achieve a certain level of Japanese language ability through the six months of language training in Japan. It is possible, however, to complete studies in English in some fields.
